2010

Hello everyone!

Spring has finally arrived! The field looks like it has survived the winter nicely and is going to green up soon.

**Modeler of the Year** - Congratulations to Don Kulla our 2009 Canton R/C Club Modeler of the Year! This trophy award is given to a member who has stood out as being helpful and beneficial to our club.

Don and his wife helped maintain the field, mowing, pulling weeds, and picking up litter. His efforts have helped make our field a beautiful place. Thanks Don! A tip of the wing to you!

**Electric Flyers** - Good news for small electric flyers. The Canton R/C Club will recognize the AMA Park Flyer Program. Park flyers can join the AMA for a reduced rate of \$29.95 a year. Aircraft are limited to electric, not to exceed two pounds and a top speed of 60 MPH.

**Club AMA Status** - The club has voted to remain an AMA chartered club.

**Mowing** - Members who cut the grass can earn \$10.00, or donate it to the club. See Gary Mullen for more information.

**50/50 Raffle** - Gary Mullen won the last 50/50 raffle and donated it back to the club. Way to go Gary, keep winning!

**Are You Getting Your Newsletter?** - If you know anyone not getting a newsletter please have them contact Janette with correct information at (330) 488-0484. You can also send your e-mail address Dave Teece at [davetece@att.net](mailto:davetece@att.net) to get the newsletter via e-mail.

**Fundraising Idea** - Any interest in a garage sale May 15-16? Spring is a great time to clean out the basement and garage. Everyone can get rid of their junk or treasure and the club could make a few bucks. May 15-16 would be two weeks after the next meeting.

**Spring Has Sprung** - Time to get out those winter projects and see how they fly. New and rebuilt models bring an excitement and anticipation of that first flight. Good luck to all!

Along those lines, good time to check all batteries. They are the most important link to R/C flying. No battery means no control. Also check muffler bolts, wheels, and canopy screws. Electric flyers, check glued in servo's and velcro battery holders.

With warming temperatures and longer days the field is a great place to spend an afternoon or evening.

Come on out, on any given day one might see planes, helicopters, flying boats, or even a flying lawnmower!

The next meeting is May 2 at noon.

Quote

"Flight is the only truly new sensation that man has achieved in modern history"  
James Dickey

**Editor's Note:** If you would like to have anything included in the newsletter such as items for sale, items wanted or an article submission please contact me directly at 330-828-0318 or e-mail: davetece@att.net
